

FISCAL NOTE

TO: Chief Clerk of the Senate
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: January 30, 1996

SUBJECT: **SB 2134 - HB 2713**

This bill, if enacted, would require the Department of Health to design and establish a reporting system requiring health care providers to report on traumatic brain injuries. The Department would be required to analyze information from the registry and create an annual report. Civil penalties are authorized for entities that fail to report to the department.

The fiscal impact from enactment of this bill is estimated to be an increase in state expenditures to maintain the registry. The amount of such expenditures cannot be determined but is estimated not to be significant.

Enactment of this bill is also estimated to increase state revenues from the collection of fines. The amount of such revenues cannot be determined but is estimated not to be significant.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is written in a cursive style with a large, stylized 'J' and 'D'.

James A. Davenport, Executive Director
